About me

My name is Nasr Allah Hejazi, and I am a student at Tullängsgymnasiet, currently studying in the Technology program. I've always had a deep passion for technology and understanding how things work, which drives me in my studies and future career goals. Soon, I'll be turning 18 and I'm excited to continue developing my skills both professionally and personally.

In addition to my interest in technology, I am also passionate about fitness, particularly gym training. I believe in staying active and focused, both mentally and physically, which helps me perform better in all areas of life. Whether it's contributing to an organization or improving myself, I always strive to give my best in everything I do.

Contact
